3.6 PRODUCT DISCONTINUANCE:

In the event that a manufacturer discontinues a product and/or model, the County may allow the successful contractor to provide a substitute for the discontinued item or may cancel the contract. If the contractor requests permission to substitute a new product or model, it shall provide the following to the County:

- 3.6.1 Documentation from the manufacturer that the product of model has been discontinued.
- 3.6.2 Documentation that names the replacement product or model.
- 3.6.3 Documentation that provides clear and convincing evidence that the replacement meets or exceeds all specifications required by the original invitation for bids.
- 3.6.4 Documentation that provides clear and convincing evidence that the replacement will be compatible with all the functions or uses of the discontinued product or model.
- 3.6.5 Documentation confirming that the price for the replacement is the same as or less than the discontinued product or model.

Product discontinuance applies only to those items specifically listed on any resultant contract. This will not apply to catalog items not specifically listed on any resultant contract.

3.7 ORDERING AUTHORITY

Contractors should understand that any request for purchase of materials or services shall be accompanied by a valid purchase order, issued by materials management, or by a capa (certified agency procurement aid). **Capa purchases are limited to values of less than \$2,500.00. No other request is valid.**

3.8 INDEMNIFICATION AND INSURANCE:

3.8.1 INDEMNIFICATION.

To the fullest extent permitted by law, contractor shall defend, indemnify, and hold harmless the County, its agents, representatives, officers, directors, officials, and employees from and against all claims, damages, losses and expenses, including but not limited to attorney fees and costs, relating to this contract.

The amount and type of insurance coverage requirements set forth herein will in no way be construed as limiting the scope of the indemnity in this paragraph.

The scope of this indemnification does not extend to the negligence of the County.

3.8.2 INSURANCE REQUIREMENTS.

Contractor, at its own expense, shall purchase and maintain the herein stipulated minimum insurance with companies duly licensed, possessing a current a.m. Best, inc. Rating of b++6, or approved unlicensed companies in the state of Arizona with policies and forms satisfactory to the County.

All insurance required herein shall be maintained in full force and effect until all work or service required to be performed under the terms of the contract is satisfactorily completed and formally accepted. Failure to do so may, at the sole discretion of the County, constitute a material breach of this contract.

The contractor's insurance shall be primary insurance as respects the County, and any insurance or self-insurance maintained by the County shall not contribute to it.

Any failure to comply with the claim reporting provisions of the insurance policies or any breach of an insurance policy warranty shall not affect coverage afforded under the insurance policies to protect the County.

The contractor shall be solely responsible for the deductible and/or self-insured retention and the County, at its option, may require the contractor to secure payment of such deductibles or self-insured retentions by a surety bond or an irrevocable and unconditional letter of credit.

The County reserves the right to request and to receive, within ten (10) working days, certified copies of any or all of the herein required insurance policies and/or endorsements. The County shall not be obligated, however, to review such policies and/or endorsements or to advise contractor of any deficiencies in such policies and endorsements, and such receipt shall not relieve contractor from, or be deemed a waiver of the County's right to insist on strict fulfillment of contractor's obligations under this contract.

The insurance policies required by this contract, except workers' compensation, shall name the County, its agents, representatives, officers, directors, officials and employees as additional insureds.

The insurance policies required hereunder, except workers' compensation, shall contain a waiver of transfer of rights of recovery (subrogation) against the

County, its agents, representatives, officers, directors, officials and employees for any claims arising out of contractor's work or service.

- 3.8.2.1 Commercial general liability. Contractor shall maintain commercial general liability insurance with a limit of not less than \$1,000,000 for each occurrence with a \$2,000,000 products/completed operations aggregate and a \$2,000,000 general aggregate limit. The policy shall include coverage for bodily injury, broad form property damage, personal injury, products and completed operations and blanket contractual coverage including, but not limited to, the liability assumed under the indemnification provisions of this contract which coverage will be at least as broad as insurance service office, inc. Policy form cg 00 01 10 93 or any replacements thereof.

The policy shall contain a severability of interest provision, and shall not contain a sunset provision or commutation clause, or any provision which would serve to limit third party action over claims.

The commercial general liability additional insured endorsement shall be at least as broad as the insurance service office, inc.'s additional insured, form cg 20 10 11 85, and shall include coverage for contractor's operations and products and completed operations.

If the contractor subcontracts any part of the work, services or operations awarded to the contractor, contractor shall purchase and maintain, at all times

During prosecution of the work, services or operations under this contract, an owner's and contractor's protective liability insurance policy for bodily injury and property damage, including death, which may arise in the performance of the contractor's work, service or operations under this contract. Coverage shall be on an occurrence basis with a limit not less than \$1,000,000 per occurrence, and the policy shall be issued by the same insurance company that issues the contractor's commercial general liability insurance.

- 3.8.2.2 Automobile liability. Contractor shall maintain automobile liability insurance with an individual single limit for bodily injury and property damage of no less than \$1,000,000, each occurrence, with respect to contractor's vehicles (whether owned, hired, non-owned), assigned to or used in the performance of this contract.
- 3.8.2.3 Workers' compensation. The contractor shall carry workers' compensation insurance to cover obligations imposed by federal and state statutes having jurisdiction of contractor's employees engaged in the performance of the work or services, as well as employer's liability insurance of not less than \$1,000,000 for each accident, \$1,000,000 disease for each employee, and \$1,000,000 disease policy limit.

If any work is subcontracted, the contractor will require subcontractor to provide workers' compensation and employer's liability insurance to at least the same extent as required of the contractor.

3.8.3 CERTIFICATES OF INSURANCE.

3.8.3.1 prior to commencing work or services under this contract, contractor shall furnish the County with certificates of insurance, or formal endorsements as required by the contract in the form provided by the County, issued by contractor's insurer(s), as evidence that policies providing the required coverage, conditions and limits required by this contract are in full force and effect. Such certificates shall identify this contract number and title.

3.8.3.2 Prior to commencing work or services under this contract, contractor shall have insurance in effect as required by the contract in the form provided by the County, issued by contractor's insurer(s), as evidence that policies providing the required coverage, conditions and limits required by this contract are in full force and effect. Such certificates shall be made available to the County upon 48 hours notice. **By signing the agreement page the contractor agrees to this requirement and failure to meet this requirement will result in cancellation of contract.**

If a policy does expire during the life of the contract, a renewal certificate must be sent to the County fifteen (15) days prior to the expiration date.

3.8.4 OCCURRENCE BASIS.

All insurance required by this contract shall be written on an occurrence basis rather than a claims-made basis.

3.8.5 CANCELLATION AND EXPIRATION NOTICE.

Insurance required herein shall not be permitted to expire, be canceled, or materially changed without thirty (30) days prior written notice to the County.

3.4 FAILURE TO EXECUTE:

Upon failure of the successful contractor to execute the contract, the bid security shall be forfeited to the County, not as a penalty but as liquidated damages to offset the cost to the County of conducting another invitation for bids. Contractor acknowledges that the County's loss as a result of the contractor's failure to execute a contract would be difficult to determine, and that the value of the bid security is a fair and reasonable estimate of what those damages might be.

3.5 REQUIREMENT OF CONTRACT BOND:

Concurrently with the submittal of the contract, the contractor shall furnish the contracting agency the following bond, which shall become binding upon the award of the contract to the contractor.

(A) A performance bond equal to the 20% of the full contract amount, conditioned upon the faithful performance of the contract in accordance with plans, specifications and conditions thereof. Such bond shall be solely for the protection of the contracting agency awarding the contract.

Such bond shall include a provision allowing the prevailing party in a suit on such bond to recover as a part of his judgment such reasonable attorney's fees as may be fixed by a judge of the court.

Such bond shall be executed by a surety company or companies holding a certificate of authority to transact surety business in the state of Arizona issued by the director of the department of insurance. The bond shall not be executed by an individual surety or sureties. The bond shall be made payable and acceptable to the contracting agency. The bond shall be written or countersigned by an authorized representative of the surety who is either a resident of the state of Arizona or whose principal office is maintained in this state, as by law required, and the bond shall have attached thereto a certified copy of the power of attorney of the signing official. In addition, said company or companies shall be rated "best-a" or better as required by the contracting agency, as currently listed in the most recent best key rating guide, published by the a.m. Best company.
